EXAMINER'S STATEMENT FOR REASONS FOR ALLOWANCE

Response to Arguments

1. Applicant's arguments, filed 9/29/2004, with respect to the rejection of claims 1, 19 and 27 have been fully considered and are persuasive. The prior art made of record fails to explicitly disclose an illuminating energy that changes the electrical state of a nanowire structure by releasing a chemical species from the surface area of said structure. Therefore, the previous rejection of independent claims 1, 19 and 27 has been withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to explicitly disclose an optical switch comprising a nanowire structure that has a first and second electrical state that changes by exposing an active surface region with illuminating energy to release a chemical species selected from O₂, NO₂, H₂O, NO and SO₂. Therefore claims 1, 19 and 27 are allowed. Claims 2-15, 17-18, 21, and 23-26 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
